#unpaz

A Place to learn, discover and explore

Achieving excellence in medical education requires constant experimentation & innovation. Social and technological change means that we are all learning in new ways, and we are responding to this by developing new modes of teaching so that our students remain active and engaged learners.

UNPAZ is a partnership for people who want to make a difference. We believe in promoting a culture of diversity, respect and aspiration, combining a pioneering approach with innovative methods to drive excellence in all we do. We are dedicated to public service, and working collaboratively to improve lives within our communities.

We are committed not just to training doctors, but to training brilliant doctors, who are equipped with the skills, agility and resilience they need to deliver excellent patient-centred care in an ever-changing healthcare environment.

A chance to build a **better** **tomorrow**

#UNPAZ MISSION

UNPAZ is a health sciences university that creates knowledge and applies science and discoveries to further education, healthcare and community service locally and globally.

#UNPAZ VISION

Improving health through science, scholarship and innovation.

#UNPAZ VALUES

Respect

- We promote and support diversity, inclusion and equity.
- We value our colleagues and ourselves as the College's most valuable assets.
- We earn the loyalty of those we serve through our commitment.

Integrity

- Honesty, ethics and openness guide our interactions.
- We encourage transparent analysis of our policies, process, procedures and decisions.
- We are accountable for our actions.

Innovation

- We lead through visionary innovation and creativity.
- We foster a healthy culture of change.
- We turn vision into action.

Teamwork

- We form mutually beneficial partnerships to achieve results.
- We look past ourselves to focus on the impact of our actions.
- We recognize all who contribute to our work.

Excellence

- We focus on quality and value
- We commit to continuous quality improvement for outstanding outcomes.
- We are effective and efficient.

#unpaz

Exceptional Medical Education

We are proud to be home to a world-leading collaboration of researchers, teaching professionals and clinical experts. Medicine has been taught at The University of Peace since 2002 and we have a rich history in turning scientific advances in research into direct benefits for patients.

As educators, our mission is to prepare our students to become the next generation of leaders in the medical science with competencies founded in inquiry, service and innovation to promote health and transform healthcare locally and globally.

UNPAZ is a top -ranked school with access to the resources of the country's largest health science center, in an exciting and affordable city, with diverse faculty and students who are supportive and service oriented and all at an affordable cost than other schools.

At #unpaz, you will help transform Timor medical education as you learn to be a doctor in our progressive, supportive Medical School. Small enough for you to feel part of a coherent community, but large enough to provide all the experience and support you need, our Medical School is suited to both Timor students and those from overseas, and there is no cap on overseas numbers.

Our MBBS programme is designed to help you develop into a competent, safe and caring doctor well equipped to progress in your chosen career. At our University, your education is our top priority, just as in the future we expect you to put the interests of patients as your top priority.

If after reading this booklet and perusing our website, you still have questions, do not hesitate to contact the Office of Admissions at enquiry@unpaz.education.

#unpaz

A campus made for medical education!

Being a healthcare practitioner goes beyond the classroom. Apart from world-class curriculum and lecturers, let UNPAZ's holistic approach inspire you to innovate, adapt, and get a head start. Your journey of achievement and pushing boundaries begins here.

World Class Faculty

You will be allocated a learned faculty mentor to be your academic guide, leading and journeying with you throughout your 5 years in the programme in Timor-Leste.

We will help to find opportunity even in the face of challenges. Students will never be left alone as peers and alumni mentors will be pillars of support and motivation for those who need them.

Simulation-Based Learning

MBBS students can develop their clinical skills in the Clinical Performance Centre which offers a student-centred learning environment. UNPAZ provides simulation-based learning experiences that guide our students in bridging the gap between theoretical knowledge and clinical practice.

State-of-the-art simulators develop students' procedural skills. Interactions with SPs impart communication and professionalism skills to students prior to encounters with real patients in wards.

Innovative Teaching

Develop your abilities for tomorrow through problem and workplace-based learning in healthcare-related industries and premises. Simulation skill labs, virtual patient scenarios, team-based learning and flipped classrooms will enhance lifelong learning experiences.

Teaching is provided through lectures, demonstrations, tutorials, ward clinics, practical classes, field visits, study tours, and surveys on health problems. Monthly clinical meetings are held on a regular basis. Teaching aids such as overhead projectors, slide projectors, multimedia projectors, and computers with teaching CDs are used in the teaching of learning procedures.

Immersive Learning Space

The Immersive Learning Space (ILS) is a dedicated facility with a large range of resources and immersive technologies. It supports and enhances students' learning experience. Our students can manipulate, navigate and explore anatomical structures, interact with simulated patients (SPs), and participate in clinical scenarios in a safe, intuitive, and highly engaging manner.

Library

UNPAZ has a fully air-conditioned library provided about 10,000 latest edition text books, references, monographs & journals on various subjects, magazines, and newspapers. The library provides updated Medica information to students and teachers. The library reading room can accommodate about 100 students at a time. Students and teachers can also carry books for use at hostel. Wi-Fi internet connection has been provided in the library so that students can browse and download recent scientific materials. The library remains open 7days a week from 8 am to 9 pm. There is also the scope of having photocopies and all other learning facilities available in the library.

Classroom & Labs

UNPAZ has fully air-conditioned galleries with multimedia and a digital sound system for lectures. In addition, there are tutorial rooms and practical class rooms attached to the respective departments. The Anatomy dissection hall has sufficient cadavers for dissection. The laboratories of various departments like Pathology, Biochemistry, Microbiology, etc are well equipped.

Auditorium

Auditorium with a seating capacity 1000 Persons, which is situated at the top floor. There are adequate spaces for cooking and refreshment attached to the auditorium. It is used for cultural and co-curricular activities, seminars, workshops, etc.

Conference Room

There is a fully air-conditioned well-decorated conference room having arrangement of sitting of 100 people. This is located in the ground floor of the college building.

Why should you be part of #unpaz?

LOWEST FEE

UNPAZ offers a high quality medical education similar to Indian medical schools at the lowest price (**IN FACT THE LOWEST IN WORLD**), a much better alternative to private medical universities in India.

1

INTERNSHIP

Students must complete 12 months of rotational internship in UNPAZ's affiliated Guido Valadares National Hospital in Dili, East Timor where they will be posted in rotation to different departments.

This period of training includes ward posting, exposure to HDU and ICU, work in rural health centre, etc. for comprehensive practical learning.

#unpaz affiliated

Guido Valadares National Hospital

Guido Valadares National Hospital (HNGV), formerly Dili National Hospital, is THE BIGGEST AND ONLY NATIONAL LEVEL HOSPITAL of East Timor.

It is located in the eastern part of the capital city of Dili. In 2003 the hospital was renamed after Guido Valadares, who was a government official of the Fretilin government in 1975.

The government has formalised the recognition of Guido Valadares National Hospital as a hospital that provides secondary and tertiary healthcare services to patients forwarded by regional hospitals from all of the national territory. The hospital is endowed of legal personality and administrative, financial and asset autonomy, integrated in the indirect administration of the State.

Healthcare professionals are from Cuba, Australia, the UNFPA, as well as local doctors. On a daily basis, English (HNGV's working language), Spanish, Portuguese, Indonesian and Tetum are used in conversation and in the hospital's clinical notes.

An autonomous institution, HNGV is accountable directly to the Minister of Health, and is funded directly by the Ministry of Finance. A referral hospital where your clinical studies will be centred at. During your time here, you will learn practical clinical skills using the finest equipment and simulation facilities, which include a simulated hospital emergency room, clinical skills and research labs, pathology resource centre, organ demo room, and problem-based learning rooms.

#unpaz and India

Developing Ties With India

UNPAZ has a commitment to develop and increase its links with India. To that end, a network has been established within the University to promote and coordinate activity related to those regions.

Relations between East Timor and India date back to the early modern period. Many Indians are employed as advisors in the various Ministries, UN agencies and international donors based in East Timor. There are also some Indian entrepreneurs, and others involved in trading and the restaurant business. Some members of the community have achieved prominence in the country such as former Defence Minister Roque Rodrigues. Manuel Longuinhos was a Prosecutor General and the first-ever surgeon in East Timor. There are also a few prominent Indian ecumenical and business families. Several East Timorese students study at Father Muller's educational institutions in Mangalore, Karnataka.

India was one of the first countries to establish diplomatic ties with Timor-Leste in 2002. Timor Leste supports India's permanent membership of the UNSC and co-sponsored the Resolution on Yoga in the UNGA.

the India-UNPAZ Initiative

The India-UNPAZ Initiative was created in 2024 as a mechanism to build and sustain partnerships between a passionate group of Doctors & Entrepreneurs from India and academics and researchers at UNPAZ. It acts as a hub to coordinate India-related activities across the University, and as a contact point for potential external partners. India-UNPAZ Initiative seeks to develop equitable partnerships with Indian management and university, leading to collaborative academic research of mutual benefit, and seeks in particular to support students and early-career researchers in developing such collaborations.

Within UNPAZ, the initiative aims to attract participants from across the University. Its strategy board includes representatives from UNPAZ & Indian management with an India focus. In addition, India-UNPAZ Initiative celebrate everything India and India Subcontinent at the university. Initiative aim to capture the breadth and depth of India related activities at the university and share with the locals of Timor-Leste for better understand about Indian culture.

Faculty Development Department

The Faculty Development Department of UNPAZ help teachers understand how to build positive relationships with students, provide timely and constructive feedback, and improve the quality of medical training by training the teachers.

Teachers are the backbone of the Medical education system. Medical education has undergone a dramatic change in the last few years with the inclusion of newer methods of learning as well as assessment.

To ease the communication between students and teachers, Faculty Development Department has recruited experienced Indian faculty members, ensures that each student is trained with the best practices and techniques in medicine. Students can comfortably clear their doubts with the Indian faculty teachers who belong to their homeland.

All Medical Teachers in UNPAZ possess a Postgraduate degree or equivalent qualification and having more than 5 years of teaching experience.

FMGE/NExT Preparation

UNPAZ understands the Peer pressure, lack of proper guidance and study material are just some of the challenges most of the students have to face During preparation. Student Support Services

Student Life #unpaz

Studying medicine can be an exacting experience. Our Student Support Team is committed to help you meet this challenge and make your student life as rewarding and stress-free as possible.

UNPAZ's 'student-first' ethos underpins our support structure, and we will provide you with academic and general guidance as well as individual learning support throughout your studies.

A student-centric campus Focused on success

UNPAZ helped establish the concept of international medical education and remains at the forefront of educating students to meet the demands of the modern practice of medicine. Students at UNPAZ receive an unparalleled level of support throughout their medical education, from student support services during the first year to ongoing support from the Student Support Team that reaches through the final years and beyond. The way we educate and structure our programs creates professionals – and the proof is in our graduate success.

Time Management Assistance

Time management is an essential element for all students who want to attain their highest level of academic success. Students can receive information on how to create a realistic schedule that includes not only time for studies, but also the important daily needs necessary for creating a balanced student life. (Yes, there really can be time to eat, sleep, and have a little fun.)

Student Wellness

UNPAZ help students cope with demanding academic programmes. Include physical activities such as online/in-person exercise classes, as well as mindfulness seminars and workshops.

We provide students with a strong support network and culture, with services such as professional counselling and coaching, academic support, and many more.

Your Personal Advisor

Students are assigned an Advisor by the first-year in campus. Advisors provide advice and guidance to ensure students are meeting milestones for graduation. Throughout your time as a student, adviser will monitor your progress & provide proactive outreach when you need it.

Career Guidance & Development

A career in medicine is, like any other professional career, very competitive. Talking with a careers adviser can help with your planning and preparation for the future and may help you get ahead.

Student Life & Engagement

The Office of Student Affairs works to enhance the overall student experience at #unpaz. Overseeing the areas of Student Activities, Student Organization Management and University Orientation, the office works diligently to create quality programs and services for our students. Through these co-curricular and extra-curricular programs and services, the office provides opportunities for student engagement and personal growth.

Community Services

Students are encouraged to participate in volunteer activities, sporting events, and other exciting projects. Students have the opportunity to join events focusing on general health care, such as mobile clinics, to promote health awareness.

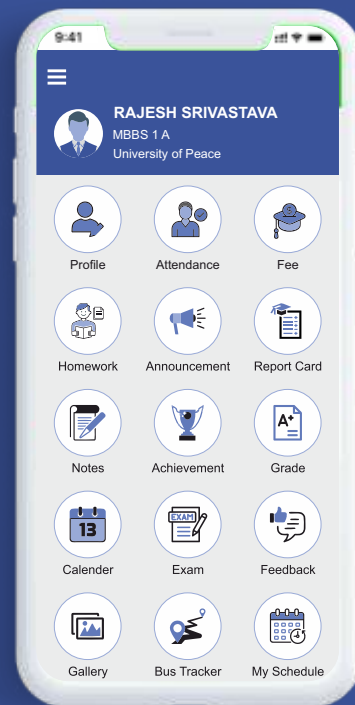

#unpaz

College Management App

UNPAZ's College Management app – designed for better interaction between student, teachers, parents, and management. This app supports to communication between teachers, school management, and students.... Very fast and efficiently without taking much effort, every task can be completed in a single click.

- ✔ View your account summary.
- ✔ Make a payment.
- ✔ View your class schedule.
- ✔ Upcoming deadlines.
- ✔ Recommended travel dates.
- ✔ Current academic calendar.
- ✔ Hostel information.
- ✔ Download notes & video lecture.

It help parents to access their child's academic progress and track their performance anytime. Attendance, Exams, Fee, Home works, Lesson planning, Notifications, Online Feedback etc. are the key features that student and parents can avail through the app.

A Place to Call Home

Student Life #unpaz

UNPAZ offers separate hostel facilities for boys and girls . The hostel has excellent safety for girls and boys with 24X7 CCTV surveillance. The warden of the college is Indian who can better understand the needs and problems of the Indian students. It is one of the prominent and vital reasons why the university's hostel is the first choice for Indian students when it comes to the living during Study at University of Peace, Timor-Leste.

UNPAZ hostel rooms are spacious & are equipped with comfortable furniture. The hostel has fully air-conditioned rooms for Indian students. Rooms come with attached washrooms and toilets. Conference study halls are there for the students to collaborate and study together.

Internet connection is provided for the study or fun purposes of students. The hostel provides hot and cold water, Common washing machines and refrigerators. Regular cleaning are done by the housekeeping staff to make sure the place is clean and healthy.

Canteen

Whenever the students go out of India to study, Food is something which is a great problem for them. Some countries do not have veg food availability and do not have the options. The hostels of University of Peace, Timor-Leste has both the options of veg and non-vegetarian from the Indian cuisines. There are Indian Chefs especially for Indians who cook delicious meals for all students. The students can definitely enjoy the hygienic food along with a finger-licking taste.

Health Care Assistance Services

#unpaz students, faculty, and staff can use the on campus health clinic for their medical needs. The clinic demonstrates the institution's commitment to the welfare of the #unpaz community by providing convenient access to quality medical care. The clinic provides: counseling services, routine medical care and screenings, vaccinations, blood tests, and electrocardiograms.

Office of Student Affairs

The Office of Student Affairs is a major support for students and serves as the primary liaison for coordinating services and efforts on the behalf of students with faculty, administration and student-health services, including disability services and accommodations requests.

Fitness Club

#unpaz students looking to take a break from their studies can take advantage of Club Fitness, a local gym complete with elliptical machines, treadmills, bikes, spin bikes, a squat rack, a full dumbbell set with adjustable benches, and more. Students can also join small group fitness classes at the gym at an extra cost. The student gym membership includes access and use of all equipment.

Security

There is round-the-clock security on campus to ensure safety of students and other members of the University.

Ans : Yes. I will lot a dedicated space in university and hostel for prayers for Muslim and Hindu students.

Welcome to Timor-Leste! a beautiful and new travel destination offering incredible natural beauty, rich history, and unique cultural experience. Our people will welcome you with warm hospitality. You can arrive to the capital of Dili, Timor-Leste with either a flight from Bali, Singapore or Australia, or by land from the Indonesian side of the island, West Timor. From Darwin, it's just over an hour by plane. If you are interested in exploring unique cultures, different and new places and have an adventurous spirit, Timor-Leste is for you – come and enjoy.

Timor-Leste also known as East Timor officially the Democratic Republic of Timor-Leste, is a country in Southeast Asia. It comprises the eastern half of the island of Timor - of which the western half is administered by Indonesia. Australia is the country's southern neighbour, separated by the Timor Sea. The country's size is 14,950 square kilometres (5,770 sq mi). Dili, on the north coast of Timor, is its capital and largest city.

Around 90% of Timorese identify as Roman Catholic and the remainder mostly as Protestant, Muslim and Hindu. Tetun and Portuguese languages have been given official status, with English and Indonesian considered working languages.

Currency

The currency of Timor-Leste is the United States Dollar (USD) based on a declaration of the UN Transitional Administration in East Timor.

Climate

Timor-Leste's climate is hot and tropical, with an average annual temperature of 25-35* C and heavily influenced by West Pacific Monsoon and its mountainous climate. Its wet season takes place between December and May and dry season between June and November.

What to Wear

Students should bring cool, comfortable clothing. Formal pants shirts with tie appreciated for the school but during class comes with the school dress-code.

Safety

Violent and petty crime is not common in Dili, however, the risk increases at night if travelling alone.

“It’s great studying in Timor Leste – I fell in love with the people in first meeting.”

MINISTÉRIO DA SAÚDE
Gabinete da Ministra da Saúde

ADVISORY

**CLARIFICATION ABOUT THE LICENSE TO WORK IN TIMOR-LESTE
AS A MEDICAL PRACTITIONER**

The Ministry of Health would like to clarify that both Timorese and foreign students who have been conferred the Bachelor of Medicine and Bachelor of Surgery (MBBS) degree from a college/university offering a faculty of medicine program recognized by the Ministry of Higher Education Science and Culture are allowed to practice as a medical practitioner, after acquiring the registration and license in Timor-Leste.

Furthermore, any foreigner having a valid medical degree from a recognized medical college/university is allowed to practice in Timor-Leste as a licensed medical practitioner or pursue higher medical education. The practice of medical acts in Timor-Leste is subject to compliance with current legislation on the registration of health professionals.

Please contact us if you require any further clarification.

Thank you

dr. Elia A. A. dos Reis Amaral
Minister of Health
