Sir Anerood Jugnauth, K.C.M.G., PC, Q.C.
Prime Minister

Prime Minister
Republic of Mauritius

Message

It gives me great pleasure to be associated with the launching of an information brochure by the Sir Seewoosagur Ramgoolam Medical College, the first medical college in Mauritius.

The SSR Medical College is providing opportunities to all those who want to study the noble art of medicine and whose parents can not afford the high costs of sending their children abroad.

It is a matter of great pride that, in such a short time, the SSR Medical College has established very strong foundations in terms of building, infrastructure and staff and is developing into a centre of excellence in the field of medical education in the region. According to the report of Professor Eric H. Harley of the University of Cape Town, the first examination results have proved that students' performances are fully comparable to international standards.

I am convinced that in years to come, this medical college will not only provide the required medical manpower to serve the country and the region but will also place us in the leading role, we aspire to, in the region. I am sure it will foster among its students the right attitude and the spirit of selfless service towards those in need of medical assistance.

I congratulate the pioneers of this project and thank them for rightly anticipating the feasibility and success of the SSR Medical College. My message to the students is 'opportunity entails responsibility. You are being given the opportunity to practice this noble profession and to serve those in need. No better gift can be passed on to the next generation than a better future.

I wish the chairman, staff and students of SSR Medical College, success, in all their undertakings.

Sir Anerood Jugnauth, K.C.M.G., PC, Q.C.
Prime Minister

15th May, 2002

Dr. the Hon. Navinchandra Ramgoolam
Prime Minister

*Prime Minister
Republic of Mauritius*

Message

I am pleased that Mauritius will soon have a Medical College which has set itself the goal of being a regional training and research institution.

Mauritius aims at being a centre of excellence in the region and the Medical College will have to live up to our high expectations. I welcome the affiliation of the College to the University of Mauritius which is known for its commitment to maintaining the highest standards.

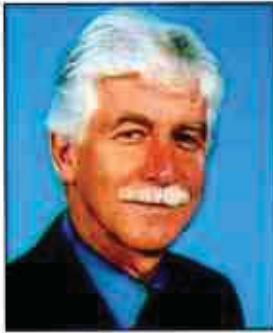

I wish to thank the promoters, the Indian Ocean Medical Trust, for honouring the Father of the Nation by associating his name with this noble institution.

The Sir Seewoosagur Ramgoolam Medical College will, I hope, be one of the institutions that will help foster in the next century the same spirit of selfless service to the community that guided the statesman who has shaped his country's destiny and set it on the path of progress.

I wish the promoters, the faculty and the future students of this college success and look forward to their contribution in the development of the country.

*Dr. the Hon. Navinchandra Ramgoolam
Prime Minister*

20th May, 1999

Paul R. Berenger, GCSK
Prime Minister,
Minister of Defence & Home Affairs

*Prime Minister
Republic of Mauritius*

Message

It gives me great pleasure to learn that the SSR Medical College is providing good level medical education under the supervision of the University of Mauritius to the students of the region. The standards of training at the College have highly impressed the renowned experts of the medical education field and imminent visitors.

I am informed that the name of this College has been retained for listing in the World Directory of the World Health Organisation. This is yet another testimony to the quality at this institute and the hard work of the teaching team.

I am confident that the laudable efforts of the promoter of this venture would bear desirable result in coming time and this medical college would emerge as a centre in the region for the production of much needed quality health care personnel and would contribute positively in the development of Mauritius.

I congratulate the Chairman and his team for this noble venture and take this opportunity to extend my best wishes to the international as well as local community of the medical students of this college for the bright and noble future in the service of humanity.

**Paul R. Berenger, GCSK
Prime Minister,
Minister of Defence & Home Affairs**

Dr. the Hon. Navinchandra Ramgoolam
Prime Minister

*Prime Minister
Republic of Mauritius*

Message

I wish to express my sincere appreciation for the initiative of the Sir Seewoosagur Medical College to publish a public awareness health booklet, on the occasion of its 6th Annual Day, this 18th September, which also marks the 105th birthday of the Father of the Mauritian Nation, Dr. the Right Honourable Sir Seewoosagur Ramgoolam.

The success of the college and the excellence achieved by the first medical graduates in Mauritius have elevated Mauritius to a new level as our country is now recognised as a regional centre for health training and education. However, excellence in health education is incomplete if it does not have a social dimension.

The distribution of this health booklet, free of charge, to the Mauritian public is a laudable effort as it shows that the College acknowledges the need to fulfil its social responsibility. Basic health knowledge and the prevention of disease are essential for the collective well-being of a society, the development of human capital and for sustained improvement in labour productivity. Government will require the full participation of all stakeholders to create the appropriate environment for sustainable development. Each one of us, in his own field, has to bring his fair contribution to the process.

I wish the Sir Seewoosagur Medical College every success in its endeavour.

*Dr the Hon Navinchandra Ramgoolam
Prime Minister*

MESSAGE

I am happy to know that S.S.R. Medical College in Mauritius is being inaugurated by the Prime Minister, Dr. Navinchandra Ramgoolam on September 18, 1999. Sir Seewoosagur Ramgoolam was truly the father of modern Mauritius and it is heartening to know that a modern medical college is being set up in his memory. May it inspire all its students to dedicate themselves to the advancement of their country and others who all need the service of well-trained doctors. I am sure that, in years to come, this college will be one of the landmarks of modern Mauritius.

I send my best wishes to the S.S.R. Medical College, its teachers and other staff, and its students.

MESSAGE

I am delighted to know that the Indian Ocean Medical Institute Trust is setting up a Medical College in the name of Late Sir Seewoosagur Ramgoolam. Sir Seewoosagur Ramgoolam is remembered as the architect of modern Mauritius. It is a befitting tribute to the memory of great son of Mauritius. It gives me added pleasure to note that the initiative to establish this College was taken by Shri R.P.N.Singh, who belongs to my home district, Ballia.

Medical Science is taking long strides. The developed countries are spending huge amounts on medical research. The backward, developing and small nations are facing dual disadvantage of paucity of funds as well as lack of technical knowledge. I hope and trust that the proposed college will go a long way in imparting upto date knowledge in the field of medical Sciences.

My good wishes to this noble venture.

(CHANDRA SHEKHAR)

REPUBLIC OF MAURITIUS

Office of the Minister of Health & Quality of Life

**Message from the Hon. Minister of Health and
Quality of Life**

The establishment of the SSR Medical School is yet another contribution towards fulfilling the vision of the Father of the Nation for a healthier and better Mauritius and for a more pronounced South-South Co-operation.

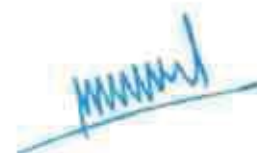

The Ministry of Health and Quality of Life is pleased to be closely associated with the first Medical School to be set up in Mauritius. This Medical School will provide the necessary medical manpower so much needed by countries of the Region. The cost of medical education in industrialised countries is so prohibitive that only a few children of rich families can afford to study medicine there. The SSR Medical School is coming at the right time to fill a void and give a chance to the gifted children of poor and moderate income families to pursue higher studies in medicine.

The collaboration between my Ministry and the Indian Ocean Medical Trust for the setting up of the SSR Medical

School is a fitting example of South-South Collaboration. From the onset my Ministry has spearheaded this project by firmly undertaking to make available all back-up facilities for the clinical training of medical students. In fact, we have already started a process of upgrading our hospitals so that they meet the stringent requirements of a teaching Institution.

I am convinced that the SSR Medical School will be a major educational asset in the region for the production of health manpower needed to serve both the public and private sectors. I am happy to note that apart from the twenty Mauritians who will register themselves in September 1999, the students of the SSR Medical School will come from India and the surrounding countries. This will definitely add to the dimension of Mauritius as a renowned Regional Training Centre of International repute.

In my capacity as Minister of Health and Quality of life. I wish on behalf of the Government of Mauritius to assure the Management Board of the SSR Medical College of our **unflinching support in this laudable venture.**

(N. Deerpalsingh)
Minister

(Inaugural Message-1999)

S. OBEGADOO
Minister

REPUBLIC OF MAURITIUS

MINISTRY OF EDUCATION AND SCIENTIFIC RESEARCH

MESSAGE OF HONOURABLE S. OBEGADOO MINISTER OF EDUCATION AND SCIENTIFIC RESEARCH

I wish to congratulate of Chairman, the staff and the students of Sir Seewoosagur Ramgoolam Medical College upon having been able to create at the SSR Medical College a centre of excellence in the field of medical education. We are all the more legitimately proud because this feat has been accomplished in a very short time. This achievement redounds upon the glory of each member of the Medical College and Mauritius is grateful to all of you for your diligence, perseverance and acumen. It is gratifying to note that Mauritius is expanding the range of competencies in a wide spectrum of areas of human endeavour with concerted efforts locally.

For an institution to attain a high watermark of excellence, it needs vision and a dedication to its mission. It needs a corporate culture of teamship and commitment to quality. In an educational institution, priorities should be formulated around the needs of students who constitute the potential labour force.

I am gratified to find that the SSR Medical College has excelled on all these counts.

I reiterate my congratulations to the Chairman and request him to be instrumental in conveying my hearty gratitude to all his staff.

(S. OBEGADOO)
Minister

Honorable Ashok Jugnauth
Ministry of Health & Quality of Life

**Ministry of Health & Quality of Life
Mauritius**

**MESSAGE OF THE HONOURABLE ASHOK JUGNAUTH,
MINISTER OF HEALTH AND QUALITY OF LIFE**

This occasion provides me with a good opportunity to express my satisfaction on the success of the SSR Medical College.

The main aim of the SSR Medical College is to impart quality medical education to students, who after their graduation will help to develop an efficient health care system. I am pleased to note that the SSR Medical College has adopted a holistic approach in the development of the course, leading to the award of an MBBS degree; and that the curriculum is undergoing continual modification to maintain its relevance to changing epidemiological situations. This will be an advantage to health professionals in Mauritius and other developing countries which are nowadays facing specific non-communicable diseases to palliate the acute shortage of medical manpower which our country is facing.

The medical profession is one among the most noble professions. It is one which is destined to serve humanity. My fervent wish is that students of the SSR Medical College who will be doctors of tomorrow will, while adhering to the Hipocratic Oath, assume their full responsibility and perform their duties in conformity to the imperatives of equity and social justice.

**Honorable Ashok Jugnauth
Minister of Health & Quality of Life**

3 May 2002

Hon. Satya Veyash Faugoo
Minister

Ministry of Health & Quality of Life

Office of the Minister

12 September, 2005

It is indeed a great pleasure for me to be associated with the publication of this magazine.

The Medical College has been attributed the name of the Father of the Nation and I must confide that it is indeed a praiseworthy initiative to coincide the release of the magazine to commemorate the 105th Birth Anniversary of an illustrious figure, who was dear to all Mauritians and will be remembered for years for his gigantic work of nation building.

The first batch of Medical Students, after successfully completing their Medical Course, were awarded their Medical Degrees at a historic ceremony held on 10 August, 2005. The Medical College, after its initial launching, has now established itself as an Institution of Excellence for Medical Studies.

Besides Medical Courses, it is no mean feat for the Medical College to run BDS Dentistry Courses. The College does not rest on its laurels and has set itself a new challenge for the future - provision of Post-Graduate Medical Courses with the collaboration of Specialised Medical Institutions of Learning in India.

The Medical College has embarked on an adventure of growth and progress and I wish it every success in its endeavour.

Satya, Veyash Faugoo
Minister

D. Gokhool
Minister

REPUBLIC OF MAURITIUS

**Ministry of Education &
Human Resources**

Office of the Minister

Message of Hon D. Gokhool, Minister of Education & Human Resources

It gives me great pleasure to contribute to the special issue of the Magazine of the SSR Medical College which is being launched as part of the commemoration of the anniversary of Sir, Seewoosagur Ramgoolam, the Father of the Nation and a visionary the like of whom are rarely seen in the history of a country.

That this Medical College which carries his name should seek to perpetuate his memory is not only laudable but also merits our deep appreciation. Indeed, since its establishment, SSR Medical College has distinguished itself as an institution aiming for excellence, both professional and social. It is no wonder therefore that it is looked upon with esteem and respect both locally and on the International level.

While it is true that, by virtue of being an island economy operating in a fiercely competitive global environment, we are presently going through difficult economic times, one crucial factor which will enable us to make a difference and carve a niche for ourselves regionally and continentally, is the quality of our human resources. The SSR Medical College has it high on its agenda to ensure that the medical practitioners graduating from it acquire the knowledge, skills, attitudes and values that can match the needs of a modern global world. The ability to think and act in an informed manner in critical situations, with judgement and common sense, and above all, with discernment, are some of the fundamental attributes that a world class human resource should possess.

Our mission is by now very well known: we need to make of Mauritius an internationally recognized Knowledge Hub, one where we will be—and consistently remain—in the forefront of cutting edge advances in various fields of human activity. We need therefore to generate world class knowledge and cause the emergence of a culture that world-renowned institutions can readily identify with and be attracted to. And, in that endeavour, we need the partnering of institutions like the SSR Medical College that fully supports the vision of the Government and are determined to work together towards a better and brighter future for our professionals.

Good luck. My sincere wish is that this institution will never renege on the quality of its educational provision and will keep the flag of excellence flying high.

D. Gokhool
Minister

5th May 2006

I am happy that the IOMIT's SSR Medical College is emerging as a centre of excellence in the field of medical education and training in the region **as vouched by** the various reports of the International Advisory Committees periodically appointed by the University of Mauritius to ensure quality at this College. **The use of this continuous quality improvement approach at the SSRMC to address problems in medical education has led the SSRMC to make strong inroads. Thus, the way was paved for the University of Mauritius to give full affiliation to the College.**

To illustrate the quality of education and training of the SSRMC and its commitment towards excellence, it is noteworthy that the first 2 batches of the Indian students graduating from this College have performed 100% success in the very first attempt at the 'Screening Test' conducted by the National Board of Examination (NBE) of the Ministry of Health and family Welfare, Govt of India, which would entitle them to register with their Medical Council and practice in India.

It is further reassuring that the MBBS graduates of this College are in the process of undergoing internship in Mauritius and in other countries and that the College is also preparing to launch Postgraduate Courses in selected specialties, which would provide enhanced opportunities of training to medical graduates. I highly appreciate that the SSRMC is addressing the need for substantial changes in medical education in order to better prepare physicians for the nation's and the world's rapidly evolving health-care needs.

I wish all the success to the college and its graduates in their future endeavors.

MESSAGE

Opening of the SSR Medical College at Belle Rive with Indian collaboration is yet another link in the history of Indo-Mauritius relationship. The seed that was sown a few years ago is bearing sweet fruits now and it is pleasing to see that not only many Mauritian students but students from many countries of the Indian Ocean Rim and SADAC Region are benefiting from this facility.

Last year the foundation stone for hostel complex was laid down by Hon. Dr. Murli Manohar Joshi, Minister of Human Resource Development, Science and Technology and Ocean Development of India, during his visit to Mauritius on 1st November 2001 at the SSR Medical College. It is a pleasure to know that the 1st phase of the hostel complex is nearing completion providing sufficient on-the-campus accommodation for all the overseas students.

The 'unflinching support' and the clinical training facility provided by the Govt. of Mauritius in its super specialty hospitals to the students of the SSR Medical College would go a long way in providing ample exposure to these students in making them 'doctors of tomorrow', fit to serve the needs of the region in the new millennium.

I am sure the high standards set at the SSR Medical College would place it on a good footing and I take this opportunity to extend my best wishes to the students, staff and the Chairman of the College, in their efforts to live up to these high expectations.

SSR Medical College
Belle Rive

Dear Sirs

Outstanding Performance of SSR Medical College Graduates in the Indian National EXIT Exams-2021 in India

We are very pleased to learn about the outstanding performance of SSR Medical College graduates in the 2021 Indian National EXIT examinations.

Kindly convey our warmest congratulations to your staff and other team members for this very special performance.

Producing the top performers across the world, amongst 439 Medical Colleges, is indeed a brilliant achievement.

Best Wishes.

MR. R. P. N. SINGH

Chairman
SSR Medical College
Belle Rive, Mauritius

From the Chairman

Dear Students,

A special warm welcome to you all, who are joining the "Silver Jubilee Batch" in Sept. '2024.

It seems, at last, the spectre of Covid-19 is behind us. The role of brave-heart doctors and medical staff has been duly appreciated after a very long time once again; and once again it has become evident that medical profession is not merely 'a one amongst many professions but a saviour of humanity, next only to Gods'. Needless to emphasise, it would remain so in future also.

Let's salute these brave Covid front-warriors and congratulate them all.

We can also share with pride, the successful contribution of our own medical graduates; passing out from the SSR Medical College (more than 2000); working world over from USA to Australia and Africa to Asia; & specially in the state health service in Mauritius, which has got over this pandemic sooner than expected and is a safe and secure Covid free country now, due to its wise state policies, intervention and efforts.

By the grace of Almighty, the menace of Covid might be behind us, however due to irresponsible human indulgence in this era of global movement, the possibility of such crisis reappearing again and related responsibility of medical professionals and so their required numbers and importance in society is bound to increase enormously.

It may not be out of context to mention the outstanding success of medical graduates passing out of the SSR Medical College in the Foreign Medical Graduates (FMG)- EXIT exam conducted by the National Board of Examination, Govt. of India, wherein our graduates have posted the '**Top Performance**' with highest pass %ge of 74.19% for 2022 & 78.70% for 2021 (where as average pass rate has been about 39.6%,); among all the 369 overseas medical colleges (with intake of more than 20 indian students) with about 52,000 medical graduates, coming back to India from China, Russia, CIS countries

(Ukraine, Kyrgyzstan Kazakistan etc), Philippines, Nepal etc, (who appeared in Exit Exam-2022), which can be verified from the NBE, Govt. of India website also.

It may not be out of context also to mention that out of these 369 overseas medical colleges, where Indian students take admission due to various immediate considerations of cost, comfort and cosy life; the Exit exams-2021 results are dismal 0% for 76 colleges; and about 10% for most of them. There are only 6 foreign medical colleges, Indian students graduating from where, have performed above 75% pass rate and the **SSR Medical College is the top performer** (with intake of more than 20 Indian students graduating/ appearing in FMG EXIT Exam) among such colleges.

For EXIT Exam-2023, reportedly, our pass %ge is equally high. (However, the 'country-wise' EXIT exam data for 2023 is yet to be published).

Such exit exam now renamed NeXT has been made compulsory for all medical graduates, even from the Indian Medical Colleges/ Deemed Universities, which is a most progressive and welcomed step, which will test the true quality of teaching at all the medical Colleges and of the future doctors as well, who handle precious human lives, which has no substitute or parallel.

With limited seats, unfortunately, we can not accommodate all the aspirants and wish the very best to them who could not make to our class; and welcome all the joining students of our 25th batch with the hope that they will join this noble profession with an added sense of responsibility and with the realisation that they are not in a fraternity of ordinary professionals, but a class apart, which is bestowed with the prime responsibility of saving the humanity in such and similar critical times.

I also take the opportunity to congratulate, amongst many more of our shining alumni graduates; the outstanding ones like Dr. Bharat Raj Kidambi for securing the Top rank in the DM(Cardiology) Exams, at All India Institute of Medical Sciences, New Delhi & Dr. Akshat Jain, New York, on being facilitated with the 'Best Young Physician of the Year' award in USA; and many more of "our shining stars".

I, welcome you to the international fraternity of the SSR Medical College and to our tradition to contribute in making the world better today and brighter tomorrow; and wish you all my very best to live up to the expectations and faith reposed in all of us; & you all will shine out specially as a member of "Silver Jubilee Batch" of our College.

(R.P.N. Singh)
Chairman

Indian Ocean Medical Institute Trust's

Sir Seewoosagur Ramgoolam Medical College, Mauritius (Established-1999)

(Pursuing the 3rd decade of excellence & affordable medical education)

(SSR Medical College is Recognised by the Medical Council of Mauritius,
Medical Board of California, U.S.A & listed in the IMED/ECFMG, U.S.A; and WHO)

HISTORY:

The Indian Ocean Medical Institute Trust (IOMIT) was established in 1996 with the avid objective of promotion of education and learning and setting up a medical college in Mauritius in the name of the 'Father of the Nation' late Sir Seewoosagur Ramgoolam (SSR), who incidentally was a doctor also.

Mr. R.P.N.Singh, an educationist and social planner from India is the Founder Chairman and Managing Trustee of the Trust for Life.

The SSR Medical College was inaugurated on 18th Sept.1999 by Dr the Hon. Navinchandra Ramgoolam, Prime Minister of the Republic of Mauritius.

The SSR Medical College, operating for the last 22 years, with excellence is the first medical college of Mauritius. The College is situated almost in the middle of Mauritius near the central town of Curepipe about 15 km from the airport and same distance from the Capital city of Port Louis. The College is affiliated to the University of Mauritius, which is the degree awarding body. (Location of the College can be viewed on Google Maps).

Some Photographs of the College can be seen on our website icon/link '[Visit Campus](#)' and also on the website of our Faculty Forum "IAMBR" website www.iambr.info

List of the Doctors who have already graduated from the SSR Medical College, (more than 2000 till June' 2024), can be viewed at our website www.ssrmedicalcollege.com (through link Alumni List /List of Final year students). They are working successfully in their respective countries and also in some of the most reputed hospitals in the USA, England, South Africa, Singapore and India etc.

One of our graduates may be practicing in your neighborhood and would be your best guide about life and quality of teaching at the S.S.R. Medical College.

The SSR Medical College is spread over about 20 acres of land provided by the Government with buildings covering an area of about 2,50,000 sq.ft. housing the Pre-clinical, Para-clinical and Clinical departments.

The Ministry of Health and Quality of life has promised '[unflinching support](#)' (See Hon. Health Minister's Commitment in Maseges) and provides state of the art J L Nehru, Victoria SSR and other specialty hospitals having more than 1000 beds for the clinical training of the students of the SSR Medical College. The MOH, Govt. of Mauritius has also agreed to arrange for the internship of our Indian medical students (vide its letter MHC / MCC / RG / FS dated 19th May 2024) as per the new rule introduced by the NMC, Govt. of India.

The long cherished dream of our Chairman and like-minded people from India and Mauritius as well as the desire of the Mauritian people to have a medical college in Mauritius, has now become a reality with the active and avowed support of the Government and the people of Mauritius; which is developing as a medical education hub in the region.

Global RECOGNITION:

The MBBS degree of the SSR Medical College has been [recognised](#) by the [Medical Council of Mauritius](#); the [Medical Board of California, USA](#) and the SSR Medical College has been recognised for listing in the [IMED/ECFMG, USA](#) and the [WHO](#). The listing can be viewed on the respective websites which enables our medical graduates to practice across the globe after completing local licentiate requirements.

"Discipline determines our Destiny"

This enables our medical graduates to register and practice medicine across the world and specially in the USA and California, where recognition rules are the toughest. As a result, **Few hundred of our MBBS medical graduates are already practicing medicine in most reputed hospitals like Mt Sinai, Johns Hopkins's USA/ UK/ France, Canada, Ireland, Singapore and in many other developed countries.**

Recognition by the MCI:

As per regulations in India, any Indian citizen with a foreign medical graduate degree (FMG) has to pass the screening test "Exit Exam", held twice every year by the National Board of Examination, Govt of India.

The SSR Medical College graduates have the stellar/ **outstanding pass rate**, at this stringent MCI screening test, which speaks of the level of teaching and training at the College (Candidates' result at FMG exam would always be subject to individual performance). The list of almost all our graduates, who have cleared this test and are registered with the Medical Council of India can be viewed at our website (Alumni List).

The Country:

"Mauritius was made first and the paradise was copied after it" Mark Twain the famous American wrote in his book "Following the Equator". (More information available on Internet).

Mauritius is well connected by air with the major cities of the Indian Ocean Rim countries, Gulf (Dubai) and Europe. Air Mauritius flies direct twice a week from New Delhi and Chennai/Bangluru and thrice a week from Mumbai to Mauritius. Air Mauritius has always been a contributor in the developmental process of the nation. As such, it has taken a keen interest and provides the students of the SSR Medical College a discount on all Air Mauritius flights, which is subject to renewal annually. Emirate also has a very good connectivity from Hyderabad, Mumbai/ Delhi via Dubai.

The College:

The SSR Medical College is situated in the heart of this paradise in the picturesque former tea estate at Belle Rive. It is spread over about 20 acres of tea garden land and is criss-crossed by two natural rivulets flowing through it. Teaching blocks, canteen and facilities are situated and planned in phases on the right flank of the rivulet where as residential blocks, Cafeteria auditorium, squash court and hostels are built & planned on the left flank of the rivulet. The on-the-campus ladies' and gent's hostels are planned separately though quite near to each other.

The Campus:

The existing building housing the Pre-clinical and Para-clinical departments has a floor area of about 2,50,000 sq. ft. Each department has its separate seminar and demonstration rooms along with a museum as required by the various Medical Councils. The department of anatomy has a spacious dissection hall of 5000sq. ft. (Sufficient number of **cadavers** are available in anatomy dissection hall) with all modern equipment and facilities for all the three types of dissection : real, virtual (Multimedia) and artificial (Dummies). All the departments are provided with charts, models, well planned museums and modern audio-visual educational aid & equipment, slide and multimedia projectors. In addition to the conventional lecture theaters, special darkroom type mini lecture theatres are provided for multimedia/computer assisted special audiovisual teaching supported by excellent clinical training facility including an air conditioned "Clinical Skills Lab" of International standards. The whole campus and the residences are covered by "Wi-Fi" connectivity. **Prof. (Dr.) Paul O' Neil, Associate Dean, Medical Education, University of Manchester, UK on his inspection visit to the college has recorded "I have been very impressed with what I have seen".**

The Cyber Library:

The well-stocked airconditioned library is equipped with all recent books and current journals. The Cyber Library of the SSR Medical College was inaugurated on 7th March 2000 by **Hon. Smt. Vasundhara Raje**, Minister from India on the eve of the visit of the Indian Prime Minister, Shri. Atal Behari Vajpayee to Mauritius. Now there are 4 Cyber Libraries Catering to the needs of the senior students, junior students & faculty members separately. 50 independent terminals have been provided, which are connected to the Internet and follow the open access system thus providing an added incentive & opportunity to the students. The library is kept open on all working days from 08:00 hrs to 16:00hrs. However, the reading rooms are open up to 22:00 hours, as per student's needs.

A unique feature of the Cyber Library is its access to about 250 global medical journals to keep the students abreast with the latest in the field of medical research and development which can be viewed through the links e-journal on our website www.ssrmedicalcollege.com. The students are provided with facility to download and print the relevant material for nominal charge.

The SSR Medical College follows the curriculum based on the latest guidelines laid down by the Medical Council of India incorporating certain features like Medical Informatics from the General Medical Council of UK.

In keeping with time, a unique feature of the syllabus of the SSR Medical College is a module on Information Technology and communication skills. This module has been included in the MBBS 1st year curriculum along with the pre-clinical subjects so that a student of the SSR Medical College is fully conversant with modern information technology skills before entering into the para-clinical years and is capable of communicating with the medico-education world independently and is induced in the process of self-learning. In teaching, emphasis is more on "feel and facilitate" rather than on traditional method of "chalk and talk".

With a view to imbibe a sense of discipline, responsibility and uniformity, it has been decided that the students of the 1st year MBBS must come to the college in uniform. **Smoking and consuming alcohol are strictly prohibited on the campus and any student found indulging in such or any other activities unbecoming of a student would face strict disciplinary action, which may lead to expulsion also and the decision of the SSR Medical College authorities in this regard would be final.**

Hostels:

To insulate the students from probable exogenous evil influences, all the overseas students are required to stay in the hostel & to be a member of the mess at the campus. Separate accommodation is provided for the Ladies & Gentlemen, with attached toilet and bath with hot water geyser facility. The students are provided with double sharing rooms. This has been done with a view to avoid loneliness, which a student encounters when he is away from home for the first time. The residents are provided access to e-mail facility at nominal cost to remain in touch with their family and friends. All the residences are covered by "Wi-Fi" connectivity and the student can use their compatible laptops/devices from their rooms. Installation of an ATM at the campus is also underway. All hostel residents must observe the "Rules for Hostel Residents" made in this regard by the college and circulated through the notice board.

The college has on the campus canteen and mess facility to cater to the varied dietary requirements of variety of overseas students from about 14 countries. The Mess charges are to be paid directly to the mess operator. A modest living excluding the room charges, in the hostel would cost about US\$ 100 per month. **Lest it will damage the electrical wiring and may cause short circuit & fire; as a safety measure, cooking and use of electrical gadgets in the hostel rooms is strictly prohibited & is a punishable offence.**

Free college transport is provided to ferry the students from the college to the hospitals and for recreational trip to market on Saturdays and pre-planned tours approved by the Principal, on holidays. A senior faculty member is in charge of every group of 15 students and can be contacted directly by the parents to inquire about the development of their ward. There are periodical reviews of the teacher-taught relationship at the highest level and the students have direct access to the Principal and the Chairman for their problem. So long as they fulfill their duties and obligations towards their studies, they will find the college a home away from home.

Hostel accommodation at the campus is available for about 80% of the students and will be allotted on first-cum basis to be confirmed by payment of the hostel registration fee. Hostel facility once opted for and registration fee paid to the college for hostel facility is non-refundable even after withdrawal from the hostel facility. Any student opting out of the hostel must inform in writing to the supt / warden and college office, at least 6 months in advance; or else hostel fee for the full year will be charged.

Clinical Training:

It is essential for a Medical College to have a hospital attached to it for the clinical training of the students. The students of the SSR Medical College are provided clinical training in Jawahar Lal Nehru, SSR and Victoria and other specialty hospitals of the Government of Mauritius having more than 2000 beds with state-of-the art facilities. A firm commitment has already been obtained from the Ministry of Health, Government of Mauritius for the training of our students in these government hospitals. The existing facilities at these hospitals satisfy the training norms laid down by the Medical Councils. The clinicians of these hospitals are also involved in imparting clinical training to the students of the SSR Medical College under the supervision of the unit heads of the specialties. All these hospitals are equipped with instruments and equipment of the highest global standards and will give the right kind of exposure and training to the medical students of the SSR Medical College thus helping to **produce doctors for the new millenium.**

Affiliation:

The SSR Medical College is affiliated to the University of Mauritius, which would be the MBBS/M.D./M.S. degrees awarding institution.

The **4th International Advisory Committee (IAC)** comprising of:

1. Prof. A.P. Weetman, Dean, The School of Medicine & Biomedical Medical Sciences, University of Sheffield, Sheffield, U.K.
2. Prof. Max Price, Dean, Faculty of Health Sciences, University of the Witwatersrand, Johannesburg, South Africa
3. Prof. K. Mohandas, Director, Shree Chitra Tirunal Institute for Medical Sciences & Technology, Trivandrum, India
4. The Chairman, Medical Council of Mauritius

Inspected and approved the SSR Medical College Belle Rive and the existing facilities and clinical material in the collegiate hospitals suitable and sufficient for the clinical training of the students of the SSR Medical College.

The IAC in its report deeply appreciated the standard of the MBBS degree, quality of the students admitted, the curriculum scope and depth, the quality of the campus infrastructure, lecture theaters, labs, libraries, electronic resources, clinical facilities and the general management of the College and expressed that the University of Mauritius **'can be proud to put its imprimatur on the SSR Medical College's MBBS programme.**

The IAC is a revolving body, comprising of the renowned personalities in the field of medical education and periodically and regularly advises on the quality of the education and staff at the SSR Medical College in consonance with the University of Mauritius and the Indian Ocean Medical Institute Trust.

WHO & ECFMG, USA Recognition:

The SSRMC has been recognised for listing by the WHO vide letter no. OSD-E3/374/5 dated 12th Dec'03 & also by ECFMG of USA for listing in the IMED, which can be viewed through links available on www.ecfmg.org. This recognition enables our students to take the USMLE part I & II in Mauritius itself. The WHO listing can be viewed on WHO website.

Medical Council Approval:

The Medical Council of Mauritius has already recognised the MBBS course and approved P.G. course of the SSR Medical College. The Syllabus of the SSR Medical College is based on the latest guidelines of the Medical Council of India with additional features like Information Technology from General Medical Council of U.K. The MBBS course, infrastructure and the facilities have been set up keeping in view the requirements of the Medical Councils. The teaching hospitals have sufficient numbers of beds and facilities as per the norms of the MCI. Recognition from the **Medical Council of India** will be in accordance with the Govt. of India, Ministry of Health & Family Welfare letter no. V. 11016/15/99-ME (OG) dated 24th March 2000.

The M.C.I. letter stipulates a screening test / "EXIT EXAM" for all the overseas medical degree holders, which now **has been made mandatory for all**, as per the new legislation of the Govt. of India. (Please check latest guidelines from NMC website in this regard).

It is a testimony to our quality teaching & training that most of the students graduating from the college have already cleared this "Screening Test". SSR Medical College is the only college to post such outstanding success at the Screening Test held by the National Board of Examination, Govt. of India and our graduates have got placements in Hospitals like Mt. Sinai & Johns Hopkins, New York, John Stroger, Chicago, USA and Kings Mill Hospital, UK. The list of our graduates is available on our website. (The National Board of Examination does not maintain college wise data of appeared/ passed/ failed students as per their reply to a RTI; REF NO: RTI/CPIO-1251A/EXAM/NBE/2016/16642).

Recognition from the **Medical and Dental Professional Board / Health Professions Council of South Africa** will be in accordance with their letter no. 2/14/18 Mr. L.A.Henderson X232/ mmt dated 11th October, 99 & in term of "Department of Health-Policy on Recruitment, employment and support of Foreign Health Professionals in the **Republic of South Africa - Internship** Para 5.6.1.4", which provides for internship allocation to 'Final-year medical students from SADC countries, e.g Lesotho, Swaziland, Mauritius, Botswana, etc. Each case will be considered on merit.'. The approval from the **Royal Medical Council of Nepal**, the **Malaysian Medical Council** and Sri Lanka & Bangladesh is also in process. However, most of the countries require a foreign medical degree holder **to pass a Screening Test before registration** for medical practice.

Internship and P.G.:

Internship options have been agreed 'in principle' at a 700 beds hospital in Delhi and would be available to our graduates at various hospitals across India on merit basis, subject to local regulations. The process for starting the PG courses in selected specialties has already been initiated and some PG Courses are expected to start at the college soon.

The management of the SSR Medical College is fully aware of the challenges as well as opportunities of opening the first medical college in Mauritius. As such, the Chairman has laid down a policy of taking only the young, energetic and the best faculty with international exposure and profound academic experience.

The faculty of the college has been selected from teachers graduated and teaching at the most reputed institutions like Oxford, the All India Institute of Medical Sciences (AIIMS) Delhi, PGIs, Armed Forces Medical College, Pune, JIPMER, Pondicherry, St. John's Medical College, Bangalore, University of Hong Kong and other reputed institutions. It speaks of the promise and prestige of the SSR Medical College that the reputed faculty from such institutions have applied and opted to work with us.

Duration of the courses:

The duration of the MBBS course is 5 years divided into 10 semesters of 6 months each from the date of commencement of the course, The MBBS course is followed by compulsory Rotating Internship. The period of 5 years MBBS course is divided into 3 phases.

MBBS Phase I (I to III Semesters), Phase II (IV to VI Semesters), Phase III (VII to X Semesters) **Post Graduation : 3 years (Under Process)**

University Examination:

The University of Mauritius appoints external examiners and moderators of international repute for conducting examinations at the end of each phase, Eminent Academics like **Prof. Eric Harley**, MD, Ph.D., F.R.C. Path., (UK) of the University of Cape Town, South Africa, **Prof. Peter Gray**, MD, Ph.D. F.R.C. Path., (Cambridge) of the University of North Durham, U.K. etc. had been the examination coordinator for the University Examinations in the past.

They are assisted by renowned MCI & DCI approved External Examiners from reputed Indian Institutions like Lady Hardinge, University College of Medical Sciences Delhi, St. John's Medical College, Bangalore & KGMU, Lucknow etc.

Examination consists of Theory, Practical and Viva voce. **An examination fee @ US\$100 per subject** shall be payable by the candidates for appearing in the University Exams for regular as well as resit exam. For any delay in filling & submitting the "Exam Form", a late fee of MRs 2500/- will be charged.

Rules of Examination:

To maintain the high standard of medical education, the college/ University of Mauritius requires every student **to complete the MBBS course in given time and attempts (check latest prevailing rule) e.g. in 9 years of time, availing 4 regular and 4 extra attempts** for the University Examinations to be conducted at the end of the 3rd, 6th, 8th and 10th Semesters. However, all the students are required to pass the 1st Professional University Examination (at the end of the 3rd Semester), in maximum of 2 extra attempts in addition to the one regular attempt; **failing which the student shall be "de-registered" from the MBBS Course.**

Candidates who fail in the 1st professional examination will not be allowed to enter Phase II. The candidate shall pass all Phase II subjects before appearing in exam for Phase III subjects. After the Phase III Final Professional examination, successful candidates have to undergo one-year (as per rules) compulsory rotating internship. 80% Physical attendance and 40% marks in internal assessment will be necessary for eligibility to appear in each University Examination. **Absence from the course**/classes continuously for 15 days without proper written sanction of leave from the Principal/Chairman of the Institution shall be treated as leaving/dropping out from the course. Additional Term tuition fee is to be paid, if student fails and repeats the term. Since all the students are 'adults'; it is Mandated/ expected that they shall keep a strict watch on their attendance & academic performances in all tests & exams & shall share/ keep their parents/ guardians aware of the same directly. No such personal information will be shared/ sent by the college authorities with anyone; except the concerned student.

Commencement of the Courses:

The intake is twice per year wef. September 2017 (In September & in March). **The induction courses of 2 weeks for the overseas students are scheduled for 2nd Monday of September and again for 2nd Monday of March respectively every year.** Vacations are planned every year, in the month of December/ January/ & June. (For details see College Calendar on College Notice Board).

Admissions:

1. **Eligibility for Admission:**

i) Academic:

Candidates should have passed the 10+2 (XII) / A level or an equivalent examination from a recognized board with Chemistry, Biology, Physics / Maths and / or English as principal subjects. (Subject to latest guidelines of the college / U o M) Candidates seeking admission in MBBS Course should have obtained not less than 60% marks in class 12th or 21 points at A Level (A=10:B=9:C=7) respectively in each subject as the minimum requirement. However, only candidates having more than 70% marks in class XII stand a fair chance for selection. Indian students should have passed the NEET exam also **in any year.**

ii) Nativity:

Students from Mauritius as well as other countries are eligible to apply. The candidates should have proficiency in English.

iii) Age:

Candidate should have completed 17 years of age on 31st Dec. 2024. They should submit documents like birth certificate or school leaving certificate to prove their age.

2. **Rules of Admission:**

i) Application Form:

A candidate for admission must submit an application in his own handwriting, in prescribed Application Form, which has been duly signed and issued by the Chairman & Managing Trustee of the IOMIT. The Application Forms can be obtained from Registered office at Mauritius, Command office at New Delhi or from designated area centres/offices mentioned in the prospectus. This form, duly completed in all respect along with necessary documents, must be submitted either by Registered post or handed over personally together with stamped and self-addressed envelope for a reply, so as to reach the office of the Indian Ocean Medical Institute Trust before the last date. Incomplete, defective and late applications will not be considered and no correspondence in this matter will be entertained. Mere submission of application and payment of processing fees or "Registration Fee" towards 'Provisional Offer of a seat in the course' will not create any right or interest in favour of the said applicant for admission to the course and the SSR Medical College.

Provisional application for admission can also be made electronically through our website www.ssrmedicalcollege.com, icon; "admission form," which is to be followed by the hard copy of the duly filled "admission application form" given at the end of this brochure.

ii) Certificates / documents to be attached to Application Form:

(a) Affidavit in the prescribed format

(b) Pass certificate/Mark List of qualifying examination (10+2/A level or equivalent)/copy of NEET result.

(c) Conduct certificate from the Head of the Institution.

(d) Document to prove age

(e) Medical Certificate from a Registered Medical Practitioner as to the candidate's physical fitness to undergo the course

(f) Self addressed & stamped envelope size (9½" x 4½")

iii) Selection of Candidates:

Selection will be based on merit, taking also into consideration the applicant's ability to meet the financial requirements of an overseas education (support by Bank Statement for the last 6 months and a letter of commitment from the Parent) and to contribute towards the growth of the institution. Short listed candidates may be required to appear for an interview before the "**Admission Panel**" headed by the Chairman on the given date and venue which will be intimated later, at their own expenses. Selected candidates will have to pay the required fee before the admission by D.D. / T.T. in favour of "Indian Ocean Medical Institute Trust".

iv) Cancellation of Admission:

If any candidate who is offered admission does not pay the prescribed fees at the time of admission, his admission will be treated as cancelled and the seat will be offered to the next eligible candidate. Mere presentation of a Bank Draft towards Registration fee/Tuition fee, unless the same is accepted by the College and the due Receipt is issued by the college, will not create or confer any right or interest in favour of the applicant for admission to the MBBS Course at the SSR Medical College. The IOMIT/College will not be responsible for any postal delay or delay due to any other cause in the receipt of the notification of admission of the candidate.

The admission offered to the candidate shall be cancelled if later the IOMIT finds that the candidate is not eligible for admission **due to non-fulfillment of the any of the conditions of admission & any fee paid by the candidate will not be refunded.**

Even if a candidate has paid the fees but fails to join the college within a fortnight without intimation or prior permission of the Principal, the latter may at his discretion cancel the admission of such a student. **If any student after accepting Provisional admission or paying the registration fee leaves or drops out of the course due to any reason; any fee including registration fee paid by the student shall not be refunded.**

If any information supplied by the student in connection with his admission is later at any time found to be incorrect, the student shall be liable to be removed from the College and all the fees paid by him shall be forfeited. The decision of the Management i.e. IOMIT in this regard shall be final.

The Chairman of the Indian Ocean Medical Institute Trust reserves absolute right to reject all or any of the applications without assigning any reason at any time before a candidate has formally joined the course at the IOMIT's SSR Medical College, Mauritius.

v) Execution of Agreement :

The Parent/Guardian of the student admitted to the SSR Medical College shall be required to execute an agreement in the proforma attached herewith at the time of admission of the student /ward to this college.

vi) Important Notice:

- (a) The Fee is to be paid only by D.D. or T.T. in the name of "Indian Ocean Medical Institute Trust". Any payment for less than US \$ 2000 shall have to be made by T.T. only.
- (b) **We do not have any Recruiting Agent or Body Representing us.** Any body dealing with any such agent will be doing so at his own risk & peril and Management will not be responsible for any such action.
- (c) Since all the students are adults, their parents are expected to gather all information about their performance/ attendance etc. directly from the students.
- (d) This prospectus is only for providing information and it is not a legal document to form basis for any claim by the applicants.

3. Tuition & Other Fees

MBBS:-

College fees is payable as prescribed by the Indian Ocean Medical Institute Trust from time to time. However, if the fees for the full course of 5 years is paid upfront by any student at the time of admission, he/she shall be given a discount of 20% in the fee. Moreover, he/she will not be affected by any subsequent increase in the fees. As such, he/she will not be required to pay the increased amount of fees. **Examination fee @ US\$100 per subject will be payable in addition to the fee.** Due to steep rise in US\$, the fees for MBBS Course for the year **2024-2025 ("Silver Jubilee Batch"/ Sept' 2024 Batch)** is as follows:

Course	College			Hostel			
	Registration fee (Non-refundable) US \$ (One Time)	Dev. fee/ EDC/ Other Charges US \$ (One Time) Silver Jubilee Batch			Tuition Fees US \$* payable as	Registration fee (Non-refundable) US \$ (One Time)	Room Fee @ US\$100/PM (For 5 Years)
1. First MBBS 3 academic terms (1½yrs.)	5000 (on acceptance of admission offer)	Mauritians NIL	Indians NIL	Others NIL	(i) US\$ 8,000 Payable at the time of joining the Course/by Jul'24/Jan'25	2,000 (on acceptance of admission offer)	1200 (Jul/Oct'24)
2. Second MBBS 3 academic terms (1½yrs.)					(ii) US\$ 8,000 by Jul'25/Jan'26		1200 (Jul'25/Jan'26)
					(iii) US\$ 8,000 by Jul'26/Jan'27		1200 (Jul'26/Jan'27)
3. Final MBBS Final - I 2 academic terms (1yrs.)					(iv) US\$ 8,000 by Jul'27/Jan'28		1200 (Jul'27/Jan'28)
4. Final MBBS Final - II 2 academic terms (1yrs.)					(v) US\$ 8,000 by Jul'28/Jan'29		1200 (Jul'28/Jan'29)
5. For additional term (deterrence fee) at each level/@per failed subject					1,000		600 for 6 Months
6. Internship fee / charges : equal to total yearly stipend paid / payable, if any to the intern +25% or actual whatever is higher							1200 (if availed)

* A one time development charge of US \$ 5,000 is payable by Indian students & US \$ 10,000 by other students; other than Mauritian students (See Website). Indian students mean Indian citizens who must also have passed their class 10th and 12th examination from a school in India only. However, as a special gesture, no Development charge will be taken from the **"Silver Jubilee Batch" (Sept' 2024 Batch)** taking admission in year 2024.

** Total fee without discount (Plan-A - Yearly Payment) :

1. For Mauritians : US \$ 45,000. 2. For Indians : US \$ 45,000. 3. For Others : US \$ 45,000.

*** A rebate of 20% in tuition fee is available, **if the total fee for the full course is paid at the time of admission.** (Vide Agreement); the total payable fee after 20% discount (**Plan-B - One Time Payment**) is as follows:

1. For Mauritians : US \$ 37,000. 2. For Indians : US \$ 37,000. 3. For Others : US \$ 37,000.

**** Parents/ students, who are not confident about their good academic performance are advised not to opt for one time payment, just to avail 20 % discount in tuition fee.

***** The Tuition fee also includes the University Affiliation fee which is quite substantial.

***** If the student have opted for paying the Tuition Fee/Fee on yearly basis, the same shall be paid by the student in advance every year, within the 1st month of the beginning of the calendar year i.e. by 31st January (for March batch)/ 31st July (for respective batches) every year; failing which he/she will automatically forfeit any right to continue in the course and also to appear in the internal/ pre-university or University examinations, without expecting any debarring notice from the college to this effect in this regard.

***** **Late Tuition fee payment charge: @ US\$ 500/- up to 31st March of the year & US\$ 1000/- up to 31st December of the year due & US \$ 2000/- for fee payment beyond this period.**

4. Submission of Applications:

- Mauritian students can obtain and submit their forms at SSR Medical College, Belle Rive, Mauritius.
- Indian students can obtain and **must submit** the completed admission forms only at Delhi Office of the SSR Medical College Mauritius.
- Students of a particular region, other than India and Mauritius, are advised to obtain and submit application forms at the nearest designated area centre.

For any additional information, the IOMIT's SSR Medical College at Mauritius or Command Office at New Delhi may be contacted.

Prospectus Cost + Processing Fee : US \$ 15 (Rs. 1000/-)

"Discipline determines our Destiny"

UNDERTAKING/ AFFIDAVIT

An affidavit in the format given alongwith signed by you and countersigned by your parent/guardian in the presence of Notary Public on Rs. 100/- equivalent value stamp paper.

I, _____ son/daughter of _____ hereby solemnly affirm that the following statements made by me are true to the best of my knowledge and belief,

- a) I am a citizen of (name of country)
- b) I have completed 17 years of age/ will be completing 17 years of age on or before 31st December 2024.
- c) I have studied classes 12 / A level or equivalent in (name of country) and passed the class 12 / A level or equivalent (Intermediate/Pre-University/Higher Secondary/Plus two/ equivalent) examination with not less than 60% of the maximum marks in the subjects of Physics, Biology, Chemistry and /or English taken together. I have also passed the NEET examination in India.
- d) I have studied the Prospectus and understood all the rules governing counseling, admission procedure, fee structure, discipline, and refund; and agree and undertake/ and make a declaration here with to abide by these rules.
- e) Mere presentation/submission of Application Form Draft of US \$ 5000/-, **(Which is not refundable)** for Registration, towards "Registration fee" / and hostel fee will not create any right for admission to the MBBS Course, unless I join the Course formally at the SSR Medical College, Mauritius after the payment of due fees.
- f) If admitted to MBBS course at SSR Medical College, I will abide by the terms of the "Agreement of Admission" signed in this regard and by all its rules and regulations, especially those governing discipline, attendance, dress code, examinations and payment of fees. I understand that failure to comply with the rules and regulations will invite appropriate disciplinary action including expulsion of the student by the institution's authorities from the course/college. In case of such expulsion/ or/ and cancellation/ withdrawal of my admission; due to any other reason including but not limited to failure and deregistration; I shall not claim any refund of the all or any fees including registration fee paid by me to the IOMIT / College or I will not complain / Protest anywhere at any forum in the above regard.
- g) I will not involve myself in any action of ragging or indiscipline or a conduct unbecoming of a medical student during the course of my education in the SSR Medical College. I understand involvement in ragging and indiscipline or conduct unbecoming of a student would result into cancellation of my admission to the course and I shall forfeit all my rights & claims for any refund of all the fees paid by me/my parent's/guardian to the IOMIT / College.
- h) I will not indulge into any kind of intoxication. If I am found under influence of alcohol or any kind of intoxication, I agree to be summarily suspended / rusticated from the hostel, classes and the course without any enquiry in the matter. The decision of the college authorities in this regard shall be final and binding on me.
- i) I also understand, agree & solemnly affirm that the information given in this information brochure/website of the college is indicative only & subject to "force majeure" and shall not form basis for any claim/damages/legal action by me, the applicant or his/her guardian or any other person in this regard.

भारतीय आयुर्विज्ञान परिषद्
MEDICAL COUNCIL OF INDIA

क्रमांक संख्या
No. MCI

दिनांक
Date

-203(327)/99-Regn./ 10080

7/7/2000

The Chairman,
Sir Seewoosagur Ramgoolam Medical College,
Bellerive,
Mauritius

Subject: IOMIT's Sir Seewoosagur Ramgoolam Medical College, Mauritius approved
by Medical Council of India — Regarding.

Sir,

Attention is invited to your letter dated 23rd December, 1999 addressed to the Ministry of Health & F.W. and your letter dated the 29th May, 2000 addressed to this Council on the subject mentioned above. The contents of World Federation for Medical Education (WFME) Task Force on 'Defining International Standards in Basic Medical Education' (report from the working group) have been noted.

As regards, approval of the syllabus of SSR Medical College, Mauritius, it may be pointed out that the Medical Council of India does not approve the syllabus of any foreign medical institution. It is however noted that the ingredients of the Graduate Medical Education Regulations, 1997 of this Council have been incorporated in the syllabus of SSR Medical College, Mauritius except a few amendments recently made. We are however sending herewith a copy each of the following documents for your information:-

1. Graduate Medical Education Regulations, 1997 with amendments.
2. Establishment of Medical College Regulations, 1999.
3. Minimum Standard Requirements for the medical college for 100 admissions annually Regulations, 1999.

The question of recognition of the qualification granted by this college/university can be taken up only after the first batch of students appear for the final examination and are awarded degrees by the University and if a request for recognition is made by the purpose by the Govt. of Mauritius to the Govt. of India. It may however be pointed out that the Govt. of India is considering a proposal to hold a screening test for all Indian citizens obtaining foreign medical qualifications for the purpose of registration in India.

Yours faithfully,

(Dr. M. Sachdeva)
Secretary.

Endst.No.MCI-203(327)/99-Regn./

Dated:

Copy forwarded for information to the Secretary to the Govt. of India, Ministry of Health & F.W., Nirman Bhavan, New Delhi (Attn.: Shri S.K.Mishra - US(ME), with reference to their letter No. V.11016/15/99-ME(UG), dated 2.5.2000.

(Dr. M. Sachdeva)
Secretary.

MEDICAL BOARD OF CALIFORNIA
Licensing Program

October 9, 2012

Sent Via E-mail: iomitssrhc@hotmail.com

R.P.N. Singh, Chairman
SSR Medical College
University of Mauritius
Belle Rive
MAURITIUS

Re: Recognition

Dear Chairman Singh:

The Medical Board of California (Board) has received and reviewed documentation submitted by the SSR Medical College, affiliated with the University of Mauritius, for consideration of possible recognition by the Board.

The Board has determined that SSR Medical College meets the criteria for recognition pursuant to California Code of Regulations, Title 16, Division, Section 1314.1(a)(1). Graduates of the SSR Medical College are now eligible to apply for a California Postgraduate Training Authorization Letter (PTAL) or a Physician's and Surgeon's Certificate.

The Board will add the University of Mauritius, SSR Medical College, to its list of recognized medical schools on the Board's Web site:
(http://www.mbc.ca.aov/applicant/schools_recognized.html).

Sincerely,

Curtis J. Worden
Chief of Licensing

**Ministry of Health and Wellness
Mauritius**

MHC/MCC/RG/FS

19 May 2022

**The Principal in Charge
Sir Seewoosagur Ramgoolam Medical College
Belle Rive,
Mauritius**

Dear Sir,

Internship of Medical Students from India studying in Mauritius

Please refer to the meeting held at the Economic Development Board (EDB) on Thursday 03 March 2022 regarding the above subject matter.

2. Kindly be informed that the Ministry is in principle agreeable to arrange for the internship of Indian Medical Students enrolling for undergraduate Medical Education in Mauritius to be provisionally registered with the Medical Council of Mauritius for the purpose of their internship. To this end, amendments to the Medical Council Act are currently under consideration.

3. It is understood that all costs relating to the internship will be borne by the Medical Institution concerned.

Yours Faithfully ,

**Mrs. Z. B. Lallmahomed
Permanent Secretary
For Senior Chief Executive**

5. For additional term (deterrence fee) at each level/@per failed subject			1,000		600 for 6 Months

OR

Plan-B (One time Payment of Total Fee at the time of admission) for "Silver Jubilee Batch" (Sept' 2024 Batch):

The Guardian / student opts to pay the entire course fees in lump sum to avail discount of 20% in the fees, thus the total fees after 20% discount being which is payable at the time of admission plus the hostel room charges, which is payable termwise on joining the hostel:

MBBS 1st-Pre Clinical, 2nd-Para Clinical & 3rd-Clinical (10 academic terms)	College					Hostel	
	Registration Fee (Non-refundable) US \$ (One Time)	Dev. fee/ EDC/ Other Charges US \$ (One Time) Silver Jubilee Batch			Tuition** Fee US\$	Room Fee @ US\$100/PM (For 5 Years)	Registration Fee US\$ (Non-refundable) (One Time)
Total :	5,000	Mauritians NIL	Indians NIL	Others NIL	32,000	Payable yearly	2,000

The Guardian has represented to the Trustees that:

- The Guardian shall pay the full fees for the entire MBBS degree course of 5 years in the manner aforesaid irrespective of whether the said minor continues the said course or not.
- The Guardian shall pay the aforesaid fees even in the event of the said ward not being able to continue the said course of the said college or the said ward continuing the said course at any other medical college for any reason whatsoever, the said ward failing and/or neglecting or being unable to attend the said course or any part thereof of the said college.
- The Guardian has further agreed and undertaken that with a view to guarantee the payment of the aforesaid tuition fees the Guardian shall procure in favour of the Trustee a bank guarantee to the satisfaction of the "Trustee" or other security to the satisfaction of the "Trustee" or since the fees for full course of 5 years has been paid at the time of admission, such a guarantee / Bank Guarantee may not be necessary.
- Relying on the aforesaid representations believing the same to be true trustees have agreed to admit the said ward to the said College for the said MBBS course.

NOW THIS AGREEMENT WITNESSETH AND IT IS HEREBY AGREED, DECLARED, RECORDED AND CONFIRMED BY AND BETWEEN THE PARTIES HERETO AS UNDER:

- The Guardian/ student agrees and undertakes that he / she shall pay to the "Trustee" the entire tuition fees and other fees for the said MBBS course as per **(Plan-A)** prepage; or full fee is paid upfront as per **(Plan-B)** at the time of admission, the time being of essence; without expecting any reminder from the college:

MBBS 1st-Pre Clinical, 2nd-Para Clinical & 3rd-Clinical (10 academic terms)	College					Hostel	
	Registration Fee (Non-refundable) US \$ (One Time)	Dev. fee/ EDC/ Other Charges US \$ (One Time) Silver Jubilee Batch			Tuition** Fee US\$	Room Fee @ US\$100/PM (For 5 Years)	Registration Fee US\$ (Non-refundable) (One Time)
Total : (Plan-B) :	5,000	Mauritians NIL	Indians NIL	Others NIL	32,000	Payable yearly	2,000

i.e. If the total fee is paid at one time **(Plan-B)**; then the total fee will be as follows:

- For Mauritius : U\$ 37,000/- +Hostel (if applicable)
- For Indian : U\$ 37,000/- +Hostel (if applicable)
- For Other : U\$ 37,000/- +Hostel (if applicable)

2. The Student/Guardian agrees and undertakes that:

- i) In no circumstances whatsoever the Guardian or any other person shall be entitled to claim any refund of the aforesaid tuition fees/other fees including registration fee or any part thereof; in the event of the ward/student leaving/ dropping out of the Course/College, due to any reason. Absence from the course/classes continuously for three months without proper written sanction of leave from the Principal/Chairman of the Institution shall be treated as leaving/ dropping out from the course.
- ii) The tuition fees shall be paid by him strictly in the manner stated herein above regardless of whether the said ward is able to continue or not the said MBBS course.
- iii) If the student have opted for paying the Tuition Fee/Fee on yearly basis, the same shall be paid by the student in advance every year, within the 1st month of the beginning of the calendar year i.e. by 31st **January every year**; failing which he/she will automatically forfeit any right to continue in the course and also to appear in the internal/ pre-university or University examinations, without expecting any debaring notice from the college to this effect in this regard.
- iv) In case of the student/ guardian failing to pay any fee due to any reason, in due time ie 31st January of the concerned year, the student/ guardian agrees:
 - (a) To pay a late fee payment charge of US \$ 500/- (US\$ Five Hundred only), if the due fee is paid by 31st March of the said year; and a late fee payment charge of US\$ 1000/- (US\$ One Thousand Only), if the due fee is paid by 31st December of the said year.
 - (b) Any delay of more than this period in paying the due fee shall attract a late fee payment charge of US\$ 2000/-.
 - (c) Failing to pay the late payment fee charge along with the due fee shall automatically render the student disqualified for joining the classes and for appearing in the pre-University/ University examinations.
- v) The additional term fee shall be paid for any additional term of study by the student due to any reason viz failure in examination or **not appearing** in the examination due to any reason what so ever.
- vi) **Even if for any reason whatsoever including but not limited to failure and deregistration the said student / minor student fails and / or neglects and/or is unable to continue the said MBBS course, the Guardian shall be bound and liable to pay full tuition fees for the entire course in the manner aforesaid.**
- vii) If the fee has already been paid; the Parents / Guardian will not claim any refund of the all or any fee paid by me to the IOMIT / College. Further, the Parents / Guardian solemnly undertakes and agrees that he / she will not complain / protest at any forum except the one agreed in this agreement i.e. "Supreme Court" of Mauritius; in the above regard.
- viii) The Guardian/student will clear all the dues as per the aforesaid agreed time schedule before appearing in the examination; failing which the students will not be entitled for filling the University examination form or for the admit card for examination. & shall be debarred by the college from appearing in the examinations.
- ix) Since all the students are 'adults'; it is Mandated/ expected that they shall keep a strict watch on their attendance & academic performances in all tests & exams & shall share/ keep their parents/ guardians aware of the same directly. No such personal information will be shared/ sent by the college authorities with anyone; except the concerned student.
- x) The Guardian hereby agrees that the ward is to be instructed by the Guardian to observe the rules, regulation and discipline with regular attendance of the said Medical College and in case of failure in this respect the decision of the "Trustee"/ Management will be held final.

3. It is clarified that the obligation and liability of the Student / Guardian to pay the tuition fees/additional term fee shall not be affected in any manner by any person whatsoever.

4. The Guardian shall procure an unconditional bank guarantee of any reputed bank to the satisfaction of the Trustee guaranteeing the payment of the tuition fees in the manner aforesaid.

5. The Guardian and the student jointly and unitedly abide themselves to pay outstanding fees for the entire course in the event the student is not allowed to continue his studies due to any reasons including disciplinary action either by the college or the University or the Govt. of Mauritius.

6. The Guardian agrees that all disputes arising out of the present agreement shall be exclusively / solely under the jurisdiction of the **Supreme Court at Mauritius only**.
