## 1. GENERAL INFORMATION ABOUT KUBAN STATE MEDICAL UNIVERSITY.

### 1.1. Geographical location and climate conditions.

Krasnodar (before 1920 - Ekaterinodar) is a city in southwestern Russia, located on the right bank of the Kuban River, at a distance of 120 km from the Black Sea, 140 km from the Sea of Azov and 1300 km south of Moscow. Together with adjacent rural settlements, it forms the city of Krasnodar with the status of an urban district.

A major economic and cultural center of the North Caucasus and the Southern Federal District, the center of the historical and geographical region of Kuban. Unofficially referred to as the capital of the Kuban, as well as the capital of the South of Russia.

Krasnodar is the third most populous city in the Southern Federal District after Rostov-on-Don and Volgograd. The population of the city is 974 319 people (as of 2022). The population of the urban district (with subordinate rural settlements) is 1,062,557 inhabitants (as of 2022). The occupied area is 294.908 km<sup>2</sup>.

Krasnodar is located on the southern border of temperate latitudes and has a transitional climate from mild continental to subtropical. Arctic air intrusions are very rare. Summer is characterized by the intrusion of tropical air.

Krasnodar is characterized by long hot summers and mild moderately warm winters. Transitional seasons are poorly expressed.

Ministry of Health of the Russian Federation

## 7.8 PSYCHOLOGICAL SUPPORT CENTER AND MENTORING

### ○ Psychological Support Center

The staff of the Center provides assistance in adaptation to students who have newly arrived for training and works in the following areas: advisory assistance, psychological diagnostics, psycho-corrective work, educational activities, and preventive activities. The employees of the center, together with the employees of the international department, are in direct contact with foreign students and are ready to provide them with all the necessary assistance.

### ○ Mentoring Institute

This is a part of the student government, whose activities are aimed at studying the main areas of tutoring and using it in the learning process. The mentoring institute consists of children studying at all faculties of our university, starting from the second year. In order to assist foreign students in social adaptation and organization of the educational process, tutors are appointed from among the most prepared senior students who speak English and other languages. A tutor is, first of all, a friend and mentor, a person who will teach freshmen to solve problems on their own and translate them into tasks. He accompanies the freshman during the process of learning and adapting to new conditions. Also on the basis of hostels there are Training Centers for the organization of self-training for students experiencing difficulties in mastering specific academic disciplines.
