## What do the Medicine & Dentistry courses involve?

### Medicine

- The entirety of the medicine course is taught in English and lasts for 6 years.
- The first two years of the program pay special attention to pre-clinical theory and study with the next four years much more focused on clinical study.
- The final year includes a one-year medical internship and you will also need to complete all state exams for licensing.
- Graduates may choose to continue with their specialization in Armenia, but their degree and license will also entitle them to go to a country of their choosing worldwide.
- Thousands of graduates from Armenian universities practice around the world so the choice is entirely yours and there are great opportunities for employment in the US, the UK, and India.

### Dentistry

- The dentistry course is taught in English and lasts 5 years.
- In years one and two, the focus is on immersing students in medical theory as well as key dentistry fundamentals.
- The focus shifts to clinical training between years three and five and includes clinical practice and apprenticeship with the study of pre and post clinical dentistry procedures.
- Upon successful completion of all course elements, students become a Dentist and obtain a master's degree.
- Some graduates choose to stay in Armenia to enjoy the low cost of living that makes it a very affordable country in which to live.
- Of course, graduates can gain excellent employment in any country of their choosing – including the US, the UK, and India.
